Hi johndoe

A user just logged into your Facebook account from a new device iphone 13 pro max. We are sending you this email to verify it's really you.

Report the user | Yes, me

Thanks,

What is one question you have about social engineering?

Kate Deavers

At school, we get emails all the time from "educational platforms" but when you look at the email it is a random name and GMAIL account

♡ 0

Donna Miller

Gaining access to your private data. You are a winner!

♡ 0

Jordan

I am wondering how social engineering will change with AI. I had to teach my Nana how to look at the URL of a website before buying from it to make sure it's legit.

♡ 0

Francisco Gracia

I get texts from UPS saying they are holding packages from me and asking for information when I haven't even ordered any packages.

♡ 0

Mandy Grage

I get text messages that look like they could be from a place I might order from. For example Amazon

♡ 0

Katlin Johnston

I have received many emails from my "principal" that he needs to talk to me and would like to through cell phone and asking for cell phone number
